NEW AUTOMOBILE LICENSE TAG LAW

DIVISION OF MOTOR VEHICLES UNDER SECRETARY OF STATE

Legalizes Charge of Fifteen Cents and Permits County Auditors to Issue—Registry Must Show That Auto Has Been Listed For Taxation—Strengthens Sales Law.

An hour after passing the Brown gasoline tax law, the house of representatives Wednesday, March 18, passed a bill by Representative Lipp, of Hamilton county, legalizing the charging of a fifteen cent fee for issuance of the automobile license tag, providing for a state motor vehicle code, a commissioner of automobiles and a complete system of registration of automobiles and recording of bills of sale.

The measure was passed without the provision for a drivers' license, which was deleted from the original bill after an amendment sponsored by Representative Orton, of Williams county, was agreed to.

As passed by the house the bill now provides for:

1.—Creation of a new division of motor vehicles under the supervision of the secretary of state and replaces the office of registrar of automobiles by creating the post of commissioner of motor vehicles. The commissioner will draw the same salary as the present registrar, \$3600 per year.

2.—Permits county auditors and such other deputy commissioners as the commissioner may appoint to issue tags, but provides that the applications for registry must be sworn to and must show that the auto has been listed for taxation on the personal tax return. The effect of this will be to have every auto in the state listed for taxation, whereas at present there is no system of checking up on those who fail to list them.

Strengthens Law.
3.—Strengthens the present provisions requiring that a bill of sale must accompany an automobile and provided a legal form for the instrument.

4.—Gives the commissioner of motor vehicles the same control over the dimming of headlights that the director of highways now has.

5.—Provides that county auditors and deputy commissioners must make a settlement with the county treasurer and that the county's share of the license revenue is retained at the county level.

BARGE CANAL PROSPECT IS VERY GLOOMY

All hopes of a river-to-lake canal to be built at the expense of the government, have gone glimmering if a report submitted to General Harry Taylor, chief of engineers, Washington, Friday by Colonel C. W. Kutz U. S. division engineer in charge of the central division, covering a survey of the various routes proposed for the project, is approved by the war department and by congress.

—L. E. Davidson of the Circleville Hardware company, is ill of the grip. H. A. Stout, formerly employed at the Bremner garage has been secured temporarily to fill Mr. Davidson's place.

Colorful Language
A girl never feels blue when some man tells her she is the only one of her kind. —L. E. Davidson

ty treasury without going to the state automobile department for distribution. The secretary of state also is required to settle with the state treasurer every 30 days for the state's share.
The bill passed by a vote of 92 to 11. The bill originally was modeled after the New York motor vehicles code but has been altered in committee and on the floor so much that it does not much resemble the original bill.

NEWS ABOUT COURT HOUSE

General Happening Taken From the Records of the Various County Offices.

Damage Suit.
Mrs. Ida Flint, thru her attorneys, Abernethy & Simkins, has filed a civil action in common pleas court against the Scioto Valley Traction and Power company, on appeal from the judgment of the Industrial commission, of Ohio. Her husband, Silas M. Flint, was killed June 4, 1923, when he fell on the third rail of the defendant's property. She made application to the Industrial commission and the claim was rejected.

Suit for Divorce.
Margaret Moore Gilroy has filed a suit for divorce against Blair Gilroy. She charges her husband with gross neglect. She also asks the court to order that he be restored to her maiden name. C. A. Weldon represents the plaintiff.

Marriage License
George Grubbs, 21, Tarleton, and Bertha Stebleton, 19, Circleville. Rev. H. B. Welch.

REV. N. NICHOLAIEVICH

Rev. Nicholas Nicholaievich, rector of the Russian Orthodox church in Seattle and dean of the Pacific diocese, is fighting in the courts the attempt of the Soviet synod of Moscow to seize church property valued at nearly half a million dollars in the United States.

Fewer Crimes in Prague
Prague.—There was a considerable decrease in crime during the last year, according to a report issued by the police authorities. The city, with a population of 700,000, had only two murder cases.
The report records an increase in street accidents, which is regarded as only natural in consequence of the rapid growth of Prague. Twenty-three were killed in automobile accidents.

Taking Off in Metropolitan Ski Jump Championship Meet

C. Hilden of New York is shown in the photograph at the Metropolitan ski jump championship tournament, North Jersey Country club.

XENIA HOME UNDER FIRE IN REPORT

Investigators Recommended Change in Management of Institution.

Change in the administration of the Ohio Soldiers and Sailors' Orphans' Home at Xenia, unless conditions are bettered is recommended by the state senate investigating committee which has been conducting a probe of the institution. A report of the probe made public Thursday, points out that the law regarding competitive bidding in the purchase of supplies is being violated.

The report was signed by all seven members of the committee.

While recommending a change in administration, no charges are preferred against any individuals. Trustees are held responsible for the alleged violation of the competitive bidding law.

Conditions which the report says should be corrected are not cited either.

The investigation was instigated at the request of the governor, who detailed two National guard officers to make a preliminary survey. Their findings were that one Xenia grocer apparently was being given bids for food supplies in an unfair manner, and that discipline at the institution was lax.

Colonel Sylvester Garver, superintendent of the home, testified before the committee as did his wife, Mrs. Anna Noble Garver, matron.

Appointment of two new trustees of the institution by the governor has been approved by the senate and they are to take office shortly. They are Colonel Rell G. Allen, of Washington C. H., and E. Jane Bailey of Wapakoneta.

Any action to be taken against the superintendent would have to be brought by the board of trustees and the governor is the only one that has the authority to remove any of the trustees.

REAL ESTATE DEALS.

Mr. and Mrs. Robert G. Colville have disposed of their residence on South Court street to Mr. and Mrs. O. L. Cartwright. The deal was made thru the Circle City agency. Mr. and Mrs. Colville have bought the residence of the late William S. Palm on East Main street and will occupy it April first.

JUDGE HIDY PASSED AWAY SUDDENLY

Judge Joseph W. Hidy, a prominent lawyer, of Washington C.H. died at his home in that city at an early hour this morning, of heart trouble.

He was in a fair state of health prior to this last attack and only yesterday was engaged in the trial of a lawsuit in his home town. About midnight he became sick and his physician was called, but his condition was such that his system could not respond to treatment and death came in a short time.

Judge Hidy was a man seventy years of age and was always prominently identified with everything for the betterment of his city and community. He served as common pleas judge several years when Pickaway county was in the same subdivision as Fayette and was well and favorably known by many of our people.

The funeral services will be held from the Presbyterian church in Washington C. H. Sunday afternoon at 2 o'clock. Burial in the Washington cemetery.

SOCIAL CALENDAR

Mr. and Mrs. Chares S. Lewis were hosts to the social session of the Thursday club last evening. Mrs. Harriet Lazenby of Columbus was an out of town guest.

Mr. and Mrs. Elgar Barrere and Misses Sadie Brunner and Grace Moodie were luncheon guests of Mrs. Harriet Lazenby in Columbus today.

Mr. and Mrs. Felix Caldwell will entertain the Supper club this evening.

NEW AUTO HEADQUARTERS.

The office of the Circleville branch of the Columbus Auto club has been moved to the corner of Court and Main streets at the confectionery store of H. E. Betz & Son. The service rendered by the agency will be to give out all information to tourists and in case of a wreck, quick service is given by calling up 659 and every accommodation that is possible will be rendered.

It is the intention of the club to put out signs and mark the highways free of charge.

INFANT DIED IN FLORIDA BURIAL HERE

Little Daughter of Mr. and Mrs. Earl Weaver Passed Away March 18.

Gloria Ann Weaver, the two and half year old daughter of Earl and Sadie Butler Weaver, died at the home of her parents at Bradentown, Florida, Wednesday, March 18.

The child was born in this city October 24, 1922. Besides her parents four sisters survive. They are Lucile, Lillian, Miriam and Audrey.

The Weaver family went to Florida last October by motor and were getting ready for the return trip home.

The remains, accompanied by members of the family, will arrive here this evening.

RAMON BRIONES LUCO

Senator Ramon Briones Luco holds the post of minister of foreign affairs in the new Chilean cabinet, which is headed by Senator Pedro Cerda.

A. L. Fuller leaves next week for Macon, Georgia, where he will join Sparks show. He plays a trombone in the band.

EAGLES WON SECOND GAME MAKING TIE

Third Contest in Series Tuesday Night Will be Fast and Interesting.

In a hard and fast game at the G. A. C. gym Thursday night the C. A. C. quintet made it one all by defeating the Eagles representatives by a 21 to 16 score.

It was a battle thruout and the fans received thrill after thrill. During the first half the sore see-sawed, first one team would be leading a point or two than the other team would forge ahead finally terminating with the club boys on the long end of a 11 to 10 score.

Beginning the second half the Eagles dropped in a bucket, but their one point lead lasted but a short time. Then the C. A. C. boys opened up and gradually forged ahead with a lead the Bird men were unable to overcome. It is hard to say just which player on either team displayed the best work but the writer feels that Mogan at guard for the C. A. C. had the edge for the best floor game while Mason and Steele split scoring honors.

The third game of this series will be played Tuesday night, March 24, and promises to be another fast one. Also on Thursday, March 26, a game will be played with the Jackson Bankers, and local fans should not fail to take advantage of this golden opportunity to see these two fast games as the season is rapidly drawing to a close.

The score:—

CLUB GIRLS FROM OHIO UNIVERSITY

Two Big Bus Loads of Fair Singers Enroute to Dayton for Contest.

Two big auto bus loads of girl students from the Ohio university, Athens parked in front of this office this morning and took lunch at the Main street restaurant. The young ladies are members of the College Glee club and were on their way to Dayton to participate in the vocal contest at the Y. W. C. A. auditorium. The girls, twenty-eight of them were in charge of Mrs. Margaret Benedict, directress of the club. Among the number, we noticed a former Circleville girl, Miss Ruth Macklin. The other clubs participating are: Denison, Ohio Wesleyan Wittenberg and the University of Cincinnati.

Miss Jeannette Youngman, who has been spending the winter in Florida has arrived home.

Various Mourning Colors

Black is not universally used as a sign of mourning. The South sea Islanders use black and white stripes, indicating sorrow and hope, while in Ethiopia a grayish brown, the color of the earth, is worn. In Persia the mourning color is light brown, and in Syria and Armenia sky blue, an indicative of heaven. In Turkey it is violet, and in China white, as an emblem of hope.

Extracting Flower Essence

Perfume must be drawn from the bloom on the day that it is plucked. In 24 hours the delicate aroma is almost gone. Many flowers are required to produce small amounts of the perfume. It takes about two tons of violet blossoms, for instance, to make about two pounds of essence of violets.

Ship Struck by Meteor

In 1908 the sailing ship Eclipse, on a voyage from England to San Francisco, was struck by a meteor, which crashed through the deck and through the whole fabric of the vessel, making a hole through which the water poured.

Lees in Revolution

Four persons by the name of Lee took important parts in the American Revolution—Gen. Charles, dismissed by congress for disobedience, Richard Henry and his brothers, Arthur and Francis Lightfoot of Virginia.

Kept in Cage Eleven Years

Jean de la Balue, French ecclesiastic and politician of the Fifteenth century, incurred the displeasure of King Louis XI, who had him shut up in an iron cage for eleven years, from 1469 to 1480.

They're Particular

Animals born in London zoos must not be named "Bob," "Prince," "Billy," "King," or any other such common names, authorities have ruled. The infant animal must be given distinctive names that will set them apart from the prosaic titles bestowed upon their four-legged ancestors.

MR. FARMER

Spring plowing has commenced. So also has your troubles. A few years ago a broken casting meant days of delay but now things are different.

I fix them while you wait. It is a common occurrence for valves to break in Ford tractors and push a hole thru the cylinder head. Instead of paying \$14 for a new one, bring me the broken one and for \$5 difference I will sell you a new one.

I fix anything in metal.
Ask to see my automatic hog waterers.

OHIO BRIEFS

(United Press.)

Columbus, March 18.—Attorney General C. C. Crabbe and Fred Postle, special prosecutor, went to Logan county to investigate the slaying by a sheriff's posse of Ray Wren, alleged lunatic.

Cincinnati, March 18.—Six village dry agents are under bond of \$10,000 each and seven others are being hunted by federal authorities in connection with the alleged "dope" ring here.

Columbus, March 18.—Governor Donahey was unable to go to his office again today, being confined to the executive mansion with an attack of la grippe. Physicians said there was nothing alarming about the governor's condition but that he needed rest.

Columbus, March 19.—Its northern border just recovering from the Lorain tornado of last June, Ohio escaped without serious loss the disaster which paralyzed Illinois and Indiana districts last night, a statewide checkup showed today. High winds were general throughout Ohio during the night and rain fell in torrents at several points but there was no loss of life.

Lorain, March 19.—Still badly

crippled by the tornado which struck this district last June, Lorain today through Mayor George Hoffman, offered relief to storm-torn Illinois. "We in Lorain know the suffering that follows such a holocaust like this," Hoffman said in a telegram to Governor Len Small, of Illinois. "The storm which demoralized the downtown section of Lorain last June and took many lives has almost depleted our financial resources. "However, we can scrape together some money and supplies to send to those who are suffering today as we suffered yesterday."

Familiar Attitude
"Most everybody sympathizes with the poor," said Uncle Eben; "for the reason that most everybody feels kind of poor himself in comparison with somebody else."

Bricks of New Design
Bricks, with facing on one side and unfinished on the other, and with air cells that insure insulation against heat and cold, have been introduced.

The Gentle Hint
He—"May I call you by your first name, Miss Nelson?" She—"Rather by your last name, Mr. Anderson."—Kansas City Star.

The time is passed when the measure of the value of a memorial is quantity. I hope the time has come when that measure is quality. I care not whether the material be marble or granite, its future will be measured by the character of the design. It is quality that has preserved for us the finest examples in painting and sculpture. It is quality that will stamp our imprint upon cemeteries of the future. Simplicity, correct lines and proportions and proper ornamentation are the real fundamentals. A design that is right, material that is lasting, and perfect workmanship, spells success for the future of this industry and the beautification of the cemetery. Will you let me help you select the memorial for your lot. Call at show room. NO AGENTS.

Siesta Made Mandatory
by Recent Law in Spain

New York.—Quitting work, closing shop and resting in the middle of hot days are now required by law in Spain under the dictatorship, according to Alfred C. Bossom, author and architect, just returned from an Iberian tour.

"From time immemorial," says Mr. Bossom, "the siesta has been regarded as an unofficial institution in Spain. Some persons observed it, while others did not. Now it is no longer optional. Tourists from America are startled by the alacrity with which Spanish merchants obey an order to close their stores from 1 o'clock to 4:30 in the afternoon. I saw this done in busy Madrid in August and September, and in the smaller cities and villages.

"When the clock strikes the first hour of the afternoon customers being served are politely requested to complete purchases as rapidly as possible. In fact, two or three clerks are willing to help one get what he wants.

"Soldiers go about in pairs, enforcing the order, and heavy fines are imposed for disobedience. The guards are affable but firm. However, there is no gloom in the obedience."

Finds Vocal Chords
Do Not Produce Sound

Paris.—The vocal chords have nothing to do with the production of the voice, according to Henri Frossard, preparator at the Sorbonne, the results of whose researches into the subject were read to the Academy of Sciences by Professor D'Arsonval.

Sound, Professor Frossard declared, is caused in the throat, not by vibrations of the vocal chords, but by vibrations of the air in the cavities beside them; consequently the mechanism of the human voice, he holds, is comparable to the ocarina rather than to the accordion. A similar theory was formulated by Professor Savart a century ago, but was never pursued.

Recently observations on persons who had lost their vocal chords by operations or wounds are said to have established that when the cavities in question and the muscles and the cartilages of the larynx were intact, the patients were able to speak aloud and intelligibly.

Learning

We learn wisdom from failure much more than from success, often discovering what will do by finding out what will not do, and probably he who never made a mistake never made a discovery. Tooke used to say in his studies of intellectual philosophy that he had become all the better acquainted with the country through having had the good luck sometimes to lose his way.—Samuel Smiles.

Cricket Under Indictment

A cricket on the hearth is a pleasant thought, but an entomologist says that a cricket that gets into the house will eat holes in clothing and lace curtains. It is hard to believe that the "cricket on the hearth," the emblem of cheerfulness and homely comfort, would do a thing like that, but the entomologists probably know more about it than the writers.—Youth's Companion.

Hard to Steal Diamonds

The Kimberly diamond fields are well guarded. Each mine is fenced in and the inclosure is roofed with fine wire to prevent native laborers from throwing diamonds over the fence to confederates on the outside. No boots, shoes or other hard materials may be taken out—only clothing which has been minutely searched.

Dreams of Dentist

Lying asleep in his bedroom, Lafayette Lane, eighty, dreamed a dentist was about to pull out one of his teeth. In getting away from the dentist, he fell 18 feet from the window of his room to the ground below.

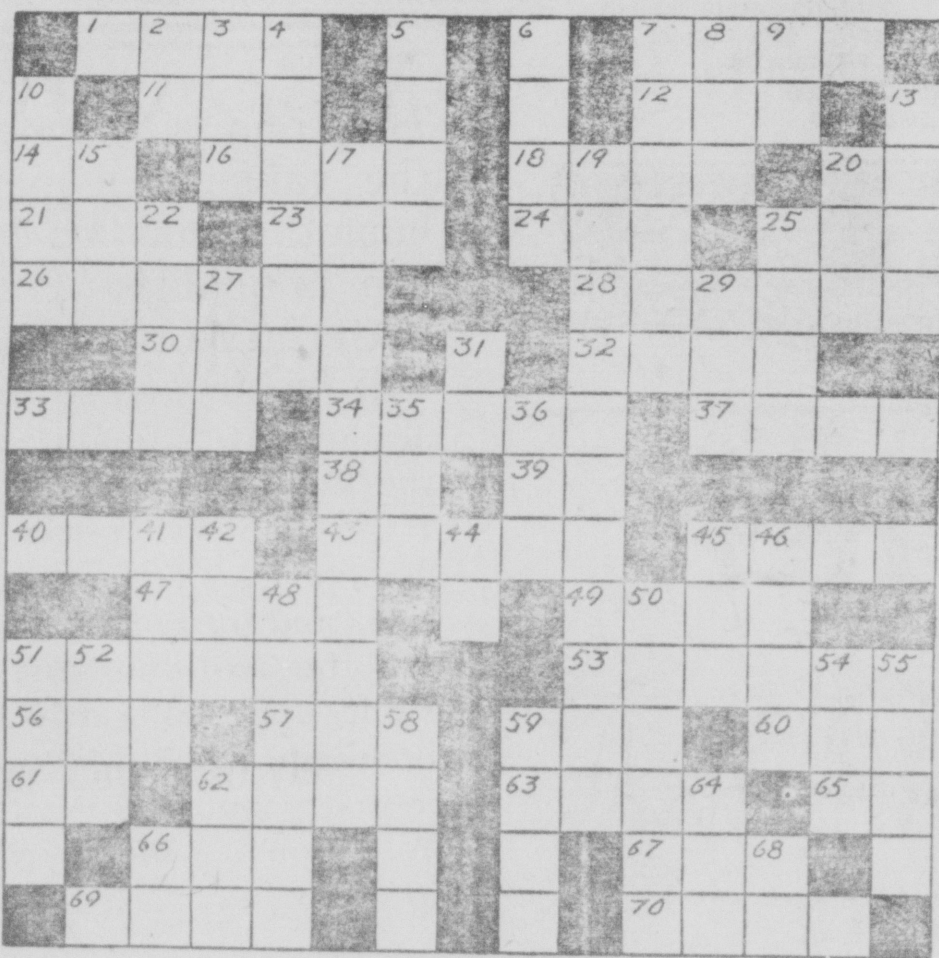

Argus of the Hundred Eyes

Argus, who, according to a Greek legend, kept guard over the beautiful Io, changed into a heifer by the goddess Juno, was a terrible monster with a hundred eyes. He was killed by the god Mercury.

Tobacco for a Wife

In 1620 Virginia planters gave 120 pounds of tobacco each for a wife when 1000 women were brought over from England as helpmates. The tobacco paid the cost of the women's passage.

CROSS-WORD PUZZLE No. 29.

(© by Western Newspaper Union.)

- Horizontal.
- 1—Extent of land surface
7—Vandalic bird sacred to the ancient Egyptians
11—A large boat
12—Snare
14—Indefinite article
16—Excursion in a vehicle
18—Part of a church
20—Perform
21—One of the two borders of the mouth
23—Confronted
24—Allow
25—Distant
26—Ascends

NUMBER OF
ABLE SCULPTORS

Will Be Considered For Completion
of Stone Mountain Memorial.

Hollins N. Randolph, President of the Stone Mountain Confederate Monumental Association, Tuesday gave out the following:

"The Association is making good progress toward the employment of a sculptor to carry on the Stone Mountain Memorial. In this connection we wish to make it plain that the way is open for any competent sculptor in the world to take up the work. Statements to the effect that the ethics of the profession stand in the way are perfectly absurd.

"There are many sculptors who are thoroughly qualified to carve this monument to the valor of Southern soldiers and who stand ready and willing to do so. The Association has under consideration the names of a large number who have been highly recommended. Among these are several Southern sculptors. There is a strong desire in the South for the Association to employ a Southern sculptor, all other considerations being equal.

"Some ninety days ago Mr. Samuel Venable, one of the donors of the Mountain, submitted to our General Counsel, Mr. Reuben R. Arnold, a list of some forty sculptors, any one of whom, in the opinion of Mr. Venable, was better qualified than Gutzon Borglum. In submitting this list Mr. Venable stated that Borglum's continuous and persistent neglect of the work at Stone Mountain would make it necessary, sooner or later, to cancel his contract and employ another sculptor. Therefore, Mr. Venable wished to take time by the forelock by giving the Association the benefit of a long list from which to make a selection.

"The Association will survey the whole field and make a careful selection and the public may rest assured that this Memorial henceforth will be in safe, worthy and competent hands."—Atlanta Journal, March 10, 1925.

Hollins N. Randolph, President of the Stone Mountain Confederate Monumental Association, on Wednesday gave out the following statement:

"I have read with a great deal of satisfaction Mr. Samuel H. Venable's statement in the press that he stands ready to give additional space on the steep side of Stone Mountain, if additional space should be needed for the Memorial, and if the United Daughters of the Confederacy request him to give it.

"I am sure his two nieces, Mrs. Orme and Mrs. Roper, who share with him the ownership of the mountain, likewise share with him his generous attitude in the matter of giving additional space.

"Under a deed of gift by Mr. Venable, Mrs. Orme and Mrs. Roper, the Stone Mountain Confederate Monumental Association owns fifteen hundred feet of the steep side of the mountain. This is ample space not only for Hall, but also ample for the entire panorama.

"However, should it develop that additional space is needed at some time in the future, I am sure the United Daughters of the Confederacy would join the Association in requesting a gift of additional space.

"There is one other party to these transactions not mentioned by Mr. Venable in his statement in the press. Stone Mountain was leased on October 21, 1911, for a period of forty years, to the Stone Mountain Granite Corporation. Mr. Fred Weiblen, the president of that corporation, authorizes me to say that he and his associates are quite agreeable to the carving of the Memorial and are willing for the Association to use additional space if the same should ever be needed. Mr. Weiblen has been very gracious in his attitude toward the Association all along.

"Mr. Venable in his statement

speaks of representation for the U. D. C. in the Association. He probably does not know that the Association recently elected the president-general and the thirty-eight division presidents of the U. D. C. to participation in the management of the Association's affairs, but they advised that a by-law of the U. D. C. prevented them from accepting, very much to the Association's regret.

"Mr. Venable also does not know, or has forgotten, that eight prominent U. D. C. ladies are members of the board of directors of the Association. These are Miss Alice Baxter, Mrs. William A. Wright, Mrs. Frank Harrold, the president-general of the U. D. C., Mrs. Charles T. Phillips, Mrs. Frank Mason, who is a sister of Mr. Venable, Mrs. T. T. Stevens, Miss Mildred Rutherford and Mrs. Walter Grace, president of the Georgia division of the U. D. C."—Atlanta Journal March 11th.

11th.

Test for Building Metals

An interesting discovery of the United States bureau of standards is that portions of metal exposed to ultraviolet light may become tarnished while the other portions remain bright. It is suggested that this increased atmospheric action may give a method of indicating the liability of metals to corrode.

Egotistic Ruler

In the early Christian era the use of mosaics for churches somewhat supplanted mural painting. Still, during the reign of Justinian the Church of Saint Sophia was built at Constantinople and its walls were adorned with paintings. It was upon the completion of this famous house of worship that the sultan exclaimed: "I have surpassed thee, O Solomon!"

Leaders in Action

The British ship Challenger was the first steamship to cross the Antarctic circle. This it did in 1874. Other expeditions, however, had preceded the Challenger. Captain Cook penetrated the Antarctic circle as early as 1772.

AMUSEMENTS

No description can give any reasonable idea of the refreshing humor and the lift-you-out-of-your-seat thrills that danced thru Douglas MacLean's new starring picture "Never Say Die" which had its initial presentation in this city at the Met theater last night.

Here is a new Douglas MacLean, with a contagious smile and a subtle adroitness which will win the hearts of the coldest audience in the world.

"Never Say Die" is the story of a very wealthy young man who is pronounced by doctors to be affected with strange ailments. To obtain the youth's fortune it is arranged that a beautiful young woman marry him and thus fall heir to his estate, if something should happen to him. The plan works perfectly except for the fact that Douglas regains all his health. Matters are complicated when his wife falls in love with him and the story becomes thrilling when one of the would be heirs hires a gun-man to put the youth quietly out of the way.

The picture is capped by a thrilling runaway in a horseless, driverless hackney cab which is about the funniest and most breath-taking piece of business ever seen in a motion picture comedy.

Opposite the star in the leading lemi nine roles are Lillian Rich who (by the way) never looked more beautiful and Helen Ferguson, one of the screen's most fascinating women.

"Never Say Die" is the second MacLean picture to be adapted from a Willie Collier stage success. No one will ever forget Douglas MacLean in the screen version of "The Hotentot" and it seems that the Collier-MacLean combination is a sure-fire producer of comedy. "Never Say Die" is due for tremendous popularity and is by far the best picture in which this adroit young star has ever appeared.

Study Alloys to Get New Weight Standards

Washington.—Among the difficulties encountered by engineers and scientists in a variety of enterprises is that metal disks or masses used in weighing the more delicate quantities refuse to stay uniform in their weight.

The differences that arise from the aging, oxidation, or transformation of the metal in the weights have proved so serious that the bureau of standards will endeavor to rid laboratories and workshops of standard variations and thus simplify the reaching of exact answers to specific problems in micro-weighing.

A whole series of metals and alloys is being prepared and tested out. Also, the manipulation of the metal masses which go into delicate weights is being studied, that even density may be obtained in the final castings.

The work will not be stopped until the whole subject has been explored.

Princeton Man to Aid Excavating of Corinth
Princeton, N. J.—Princeton university will have a considerable part in the new project of the American Archeological school of Athens to excavate the city of Corinth. Theodore Leslie Shear, art and archeology lecturer at Princeton, recently sailed for Greece and he will have charge of the excavations of the great theater of Corinth. The location of the theater has already been determined by the peculiar depression in a certain part of the city. The theater faces north toward the Gulf of Corinth and is directly opposite Mount Parnassus. Professor Shear declared: "It will be an enormous undertaking, as every bit of the work must be done by hand, and we estimate two years as a minimum for the complete excavation."

Discoveries of an important nature are likely, according to Professor Shear. Corinth of old was one of the greatest cities of the "glory that was Greece," and the excavations may shed light on many hitherto debated questions.

RECEIVERS' SALE OF

IT PAYS TO ADVERTISE

TOLD IN A PARAGRAPH

William Vaneickle, of Circleville, was arrested here Saturday night by Marshal William Betts after liquor was found in his automobile. He was placed in the local jail and was arraigned before Acting Mayor D. W. Moler where he plead guilty to the charge of transporting liquor and was fined \$50 and costs.

When searched, Vaneickle was carrying a gun and he was turned over to the county officials on the charge of carrying concealed weapons.—Williamsport News.

Sees Dog Ghosts
Ad Felowes, London humane officer, declares he is haunted in his dreams at night by the ghosts of the dogs he has killed. He says the dreams always end with what sounds like the tremendous wailing of hundreds of his canine victims. Medical authorities are endeavoring to correct the delusion.

BIRTH
March 14—At Chillicothe, to Mr. and Mrs. Guy W. Clellan, a 10-pound son. Mrs. Clellan was formerly Miss Addie Adkins.

Tricks of the Tide
The piers of Waterloo bridge, London, have been proved to rise and fall with the tide. The amount of movement is from two to three-sixteenths of an inch. It extends for some distance north and south of the river, and the question arises whether certain vertical movements of the whole structure of St. Paul's cathedral may not be of tidal origin.

Easy to Clean Shades
To clean white window shades, spread a sheet on the floor, unroll the shade and with a soft cloth scrub the shade with magnesia and water. After treating one side turn the shade over and clean the other side in the same way. This method removes the dirt and renews the shade at a cost of about 10 cents.

We need your patronage—that's why we advertise. We are as anxious to fill a modest order as a large one. If you want pure food at plain prices, come!

BEEF, PORK, LAMB, VEAL

MR. OBLIGE
We consider it a joyful obligation to supply you with just the cut or quality meat you want.

NEW PLANT RACES ARE SOUGHT FOR THE WORLD

Scientists Urge Co-Operation of Medicine and Botany in Vast Plan of Research.

New York. — Enormous economic losses can be checked, and the cost of the food supply cut, by creating new races of plants, it was declared in a report by the scientific directors of the New York Botanical garden, of which Prof. Robert A. Harper of Columbia university is chairman.

Medicine and botany should join in a vast plan of research to attack the problems of disease in plants, which offer many analogies to disease in human beings, according to the report, made public by the directors, who include President Nicholas Murray Butler and members of the science faculties of Columbia.

"With New York gradually becoming the leading medical center of this country," the report says, "and with the opportunity for medical contributions from the side of botany, it would seem most appropriate for the botanical garden to offer the facilities of its immense collections for fundamental researches into the problems of disease."

Diseases of the great cereal crops are now vitally affecting the welfare of both farmers and consumers, the report says, pointing out that wheat rust in a single year has cost the country more than \$20,000,000, and that dry-rot of corn is becoming a pressing problem, a loss of more than \$5,000,000 having been suffered during this period in Illinois alone.

Plants may provide a new method of attack for the conquest of human ills. "There are reasons for believing," the report explains, "that many of the fundamental phenomena of disease processes applicable to all living beings may be studied in plant as readily as, if not more readily than, in human beings."

"While it is becoming customary to control the infectious diseases of human beings by the use of serums and vaccines, this method has so far proved impracticable with plants; and the common procedure with them is to apply poisons by spraying, dusting or treating the seed. This entails a permanent cost on the grower, which in the case of food plants is added to the cost of the human food supply."

"If, however, races could be produced which were immune to disease, the cost of food production would be so much reduced. It is now, indeed, generally agreed by plant pathologists that it is in the study of racial and inherited immunity and in breeding for disease resistance, rather than in prophylactic measures with existing races, that the solution of the great problem of reducing the enormous losses to agriculture and horticulture due to diseases of both physiological and infectious origin is to be sought."

Get Busy

You must select your work; you shall take what your brains can, and drop all the rest. Only so can that amount of vital force accumulate which can make the step from knowing to doing. No matter how much faculty of the idle seeing a man has, the step from knowing to doing is rarely taken. It is a step out of a chalk circle of ineffectuality into fruitfulness.—Ralph Waldo Emerson.

Did Nothing but Work

A discouraging fact is that, whenever you find somebody who has attained success in the same field of endeavor you're in yourself and investigate a little to ascertain how it's done, you find that he's worked like the very devil all his life and done darned little else.—Ohio State Journal.

STATE LACKS RIGHT TO TEACH RELIGION

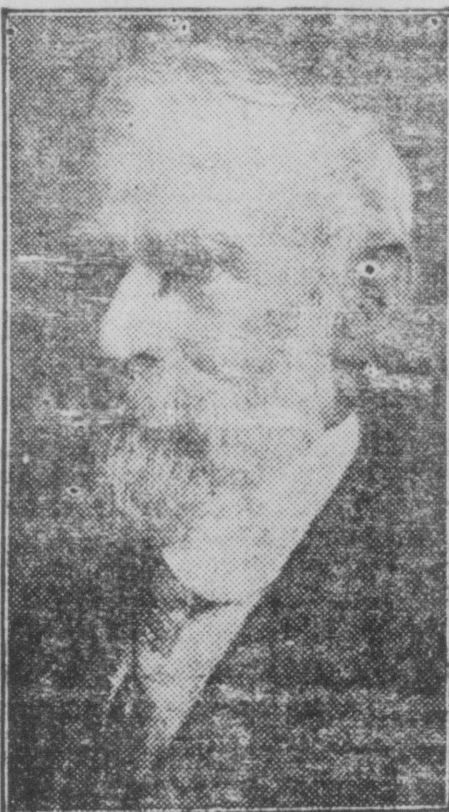

—Dr. Schuette

Statement of Educator Based On Constitution

Church And State Separate

"Public Educational Institutions Were Not Established to Make Christians; Neither Is It Within Their Scope to Undermine Christian Principles."

Columbus, O.—(Special)—"The State and Church are fundamentally separate and independent units of Society. In the Constitution of the United States they are expressly declared so. Therefore, the State has no right to teach religion. But at the same time, the State has no right to teach irreligion." This statement came from Dr. C. H. L. Schuette, president Emeritus of the Joint Synod of Ohio and other States, one of the largest independent Lutheran church bodies in America, and in the latter part of the '80's and early part of the '90's, president of Capital University, Columbus, O., the Synod's historic educational institution whose resources are being ex-

DR. C. H. L. SCHUETTE

panded by \$1,500,000, when asked to give his opinion on the matter of present day controversies regarding the teaching of religion in the public schools.

"Since the Constitution expressly forbids the teaching of religion in our public schools," continued Dr. Schuette, "these same institutions have no right to promulgate false religions such as evolution. Since the origin and descent of Man is a fundamental article of the Christian Church, the public educational institution have no right to teach any hypothesis or theory contrary to it. These institutions were not established to make Christians; neither is it within their scope to undermine Christian principles. It is their business to spend their efforts and the taxpayers money in the pursuit of true science, true knowledge."

Dr. Schuette, 82 years old, has been affiliated in the official capacity with educational work for a period of 53 years. He has seen the Evangelical Lutheran Joint Synod, of which he was president for 30 years grow from a membership of 22,000 with 85 pastors to 175,000 and 700 ministers. The Synod is at present launching the first of a series of campaigns which will eventually increase the resources of Capital University by \$1,500,000. Five hundred thousand dollars, to be raised by June, is to be used for additional endowment, and for the building of a \$250,000 girls' dormitory.

Report 11,000 Women Operate Farms in Ohio

Columbus, Ohio.—Ohio has 11,000 woman farmers, according to data analyzed by an institute here. Of this number, more than 9,000 operate farms (8,500 their own), 35 as managers and nearly 600 as tenants.

Dairying, poultry and hog raising are branches of agriculture in which the woman farmers of the state specialize. The land under cultivation by the feminine agriculturists is nearly 600,000 acres, of which 450,000 acres are improved. The value of these farms is \$61,000,000.

The figures further revealed that women cultivate 3.5 per cent of all farms in the state and 2.6 per cent of the total acreage, the value being 2.3 per cent of the whole. The average value of the land and buildings on farms operated by women was found to be in excess of \$6,800.

Commenting on the large percentage of women who go in for dairying and poultry raising, the institute notes a peculiar adaptation of these occupations to the feminine nature. From early times, it says, the average farm woman has had to care for the milk and act as poultry raiser.

Ancient Commerce Body

The chamber of commerce of New York was formed in 1768 and the charter granted at that time by King George III of England was to "The chamber of commerce of the city of New York in America." When the United States was reestablished under the laws of the state of New York and the name changed to the chamber of commerce of the state of New York.
